Communications round-trip delay to Chiron, twenty-two seconds. Formal arrangements for reception procedures still not concluded. Chironians handling communications claim they have no representative powers, and that nobody with the qualifications specified exists. Mayflower II's defenses brought to combat readiness..So much to lose..of seeing that make the night as penetrable as daylight..Kalens looked disdainfully down his nose. "My staff contacted him through the Chironian communications system. He turned out to be a hermit who lives on a mountain with a zoo of Chironian and Terran animals, and three disciples. They're all quite insane.". Karla giggled, said something indecipherable, and pulled Sharmar inside, closing the door behind them..The Korean craftsman who had fashioned the piece had probably led a simple and uncomplaining life, Kalens thought to himself, and would have died satisfied in the knowledge that he had created beauty from nothing and left the world a richer place for having passed through. Would his descendants in

the Asia of eight hundred years later be able to say the same or to feel the same fulfillment as they scrambled for their share of mass-produced consumer affluence, paraded their newfound wealth and arrogance through the fashion houses and auction rooms of London, Paris, and New York, or basked on the decks of their gaudy yachts off Australian beaches? Kalens very much doubted it. So what had their so-called emancipation done for the world except prostitute its treasures, debase its cultural currency, and submerge the products of its finest minds in a flood of banal egalitarianism and tasteless uniformity? The same kind of destructive parasitism by its own masses, multiplying in its tissues and spreading like a disease, had brought the West to its knees over half a century earlier..Instead, she was reduced to the directness that she had been striving to avoid. A faraway look was coming into Anita's eyes. "Brains and trains. I like it. It's lyrical. Don't you think it's lyrical?" She smiled at Jay and winked saucily. "Hi, Jay." The pill was mixing with the drinks and getting to her already. Jay grinned but looked uncomfortable..Jay shrugged. "All the things crazy people usually follow crazy leaders for, I guess..". "So when are you going to show it to me?". Jay shrugged. "Any time you like." "You going to Jersey fight now?". "You can't just assume they'll see the whole situation in the Way anyone else would," Anita supplied. "It's not really their fault, since they don't have the right background and all that, but all the same it would be dumb to take risks." "It makes sense, I guess," Paula agreed absently.. "Let it go, Aunt Gen. I have..". "Mmm ...". Colman murmured. Botany wasn't his line. Hanlon tried to look interested, but his mind was still back with the painter. After a few seconds he looked at Colman. "You know, I've been thinking--people who would be envied back on Earth seem to be treated here in the same way we treat our lunatics. Do you think we're all crazy to the Chironians?".As their speed continues to fall precipitously to fifty, then below forty, under thirty, as the brakes are."I never eat it," Leilani said. "The last time old Sinsemilla served it was Monday. So come on, tell me..". "Will do. See you in a few minutes..".want to meet at night in a lonely corner of a parkin' lot..".Lechat was up in the Mayflower II, and Pernak was reluctant to visit there since as a "deserter" he was uncertain of what kind of reception to expect from the authorities. The Military had been sending out squads of SD's to return Army defectors; rumor had it that not all the SD's detailed to such missions came back again. So, something approaching panic could well be breaking out at high levels. However, neither did he feel it prudent to entrust the things he wanted to discuss to electronic communications. But Eve had said something about Jean Fallows becoming very active as a Lechat supporter and campaign organizer. . . That would be a good place to begin..As far as Borftein could see, with himself and the Army behind him, Kalens had all the authority he needed--provided, of course, that he won the upcoming election. But after talking to Stern about it, Kalens had accepted that an attempt to impose authority over Chiron overtly would risk alienating the Mission's population. A more subtle approach was called for. "Ultimately, human instincts cling to the known and the familiar," Kalens lectured Borftein later. "A visible commitment to lawfulness as a alternative to the lawlessness of this planet is the way to maintain cohesiveness. We can't afford to jeopardize that." So Borftein had -agreed to try playing the game their way, which hinged upon provisions written into the laws to take account of the abnormal circumstances of a twenty-year voyage through space..Only Aunt Gen, last of the innocents, would call them boyfriends? those predators, pariahs proud of.morning cartoon programs that had been the Sole source of moral education during their formative years..Jean looked away as she heard the front door open. A few seconds later Jay arrived. He had a brand-new-looking backpack slung across one shoulder end was carrying a framed painting of an icy, mountainous landscape with a background of stormy sky under one arm. His expression was vaguely perplexed..Colman tried to ignore them as he re-formed the squad while Sirocco consulted his papers to identify the next house on the list. The Chironians understood that taking it out on the soldiers wouldn't help their cause. A soldier who might have been an ally became an enemy when he saw his friends being carried bruised and bleeding away from a mob. Everything the Chironians did was designed to subtract from their enemies instead of add to them, and to whittle their opposition down to the hard core that lay at the center, which was all they had any quarrel with. He could see it; Sirocco could see it, and the men could see it. Why couldn't more of the Terrans see it too?.Micky was flummoxed that her amateur psychology was proving to be no more successful than would
