It was the second one he'd had. He would get pale and nervous. I think he was in a lot of pain. It would get. There were whirligigs in the second patch, but they lacked the variety and disorder of the originals. They were of nearly uniform size, about four meters tall, and all the same color, a dark purple. They had pumped water for two weeks, then stopped. When Song examined them, she reported the bearings were frozen, dried out. They seemed to have lost the plasticizer that kept the structures fluid and living. The water in the pipes was frozen. Though she would not commit herself in the matter, she felt they were dead. In their place was a second network of pipes which wound around the derricks and spread transparent sheets of film to the sunlight, heating the water which circulated through them. The water was being pumped, but not by the now-familiar system of windmills. Spaced along each of the pipes were expansion-contraction pumps with valves very like those in a human heart. dirt of kingdoms she had never seen. He sang songs she had never heard before, singing them softly into. Nina stood before him and she was stark naked. Stark naked, her arms opening in invitation..It was small comfort, but Nolan had no choice. And he was too tired to protest, too tired to worry. Once aboard the launch and heading back, he stretched out on the straw mattress in a sleep that was like death itself..now; his head was throbbing with weariness..Without breaking stride, she kicked high over her head and grinned at me. "Elevations." Then she stopped and turned to face me. "Ill have to ask you for a favor. Mandy doesn't know about my practice sessions. Not being a dancer, she wouldn't understand how important this is to me, either. She'd just be upset knowing I was here out of my time. So when you take her to lunch today, please don't mention you saw me." "Would you like to come with me," asked Amos, "and get the piece yourself." "I will? when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist. Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's *Saint Genet*..There, he thought, that should keep her busy long enough for me to think of the next one. He opened a second beer and took a meditative swallow. Did poets ever write poems about drinking beer? Or was that too general? Better to ask her to write about her favorite brand of beer, a kind of advertisement." "It was a very . . . short argument." Her voice began to catch. "And I find the ... conclusion rather . . . inconsistent" Her control was cracking. Tears spilled out of her eyes. Her hand was white on the handle of the tool caddy..day before?and today?I'll end up screaming. It seems so pointless, collecting all that information, for the barrow..though. As I paddled around, I felt my muscles relax and a drowsy lassitude flow through me..voice said, "I am the North Wind, and I am very much at home." "That's what you feel like," said Amos.
