I can't help feeling that he's been set up by somebody else as the fall-guy, and that the somebody else hasn't come out yet. I think the Chironians believe that too." And then those nearest the tunnel mouth raised their heads and exchanged puzzled looks. On the observation platform Jarvis peered over the parapet, hesitated for a moment, and then straightened up slowly. One by one the soldiers began lowering their weapons, and Jarvis came back down to the floor of the lock. "My guys will junk it. He better have a bus pass for backup." breathing. My policy was to encourage their leaders out into the open by a demonstration of peaceful coexistence, and you went along with it. Withdraw your statement." "You are certain that we could make the cover of Chiron safely?" anything this good if her life depended on it? not that she's ever likely to face a pie-or-die threat. He returned to the Bowery, where a couple of businessmen out on the town bought him a drink. They were concerned about the rumors of possible trouble because they had big plans for expansion on Chiron, and they pressed ..... Colman for inside information from the Military. Colman ' -d he didn't have any. The businessmen hoped everything would be resolved peacefully but were glad that the Army was around to help solve any problems. They didn't want peace to prevent people like Colman from getting shot or so that Chironians who were like Jay and the black guy near Zeerust could become engineers or run their farms without getting wiped out by air strikes; they wanted it So that they could make money by hiring Chironians at half the wages they'd need to pay Terrans, and to set up good, exclusive schools to put their kids in. You couldn't put Chironians in the schools, because if you did they'd want the same wages. And in any case they'd never be able to afford it. The Chironians weren't really people, after all. gauze bandage. Securing the pad with the gauze, winding it around and around the injured hand. Finishing. As if there's already something of the dog's heart twined with his own, the boy finds his mouth filled with. as she stumped toward the foot of the bed. "Bernie, this is too much!" Jean's voice came up from the lounge area below. "I'm never going to get used to this." Bernard smiled to himself and left Jay's room to enter the open elevator cubicle by the top of the curving stairway. Seconds later he walked out again and into the lounge. John was standing in the center of the floor between the dining room and the area of sunken floor before the king-size wall screen that formed a comfortable enclave surrounded by a sofa, two large armchairs, and a revolving case of shelves half recessed into the wall; a coffee table of dark-tinted glass formed its centerpiece. She gestured helplessly. "What are we ever going to do with all this space? You know, I'm really beginning to think I might end up developing agoraphobia." to a point where it had entirely collapsed. She clattered across the flattened section of pickets and. "You too," Colman said. He and Driscoll left for the forward section of the Spindle to join Swyley, who, if all was going well, would already be organizing the men drifting in from various parts of the ship to block off the. The forest in which he crouches is also a forbidding realm at night, and perhaps in daylight as well. Fear. Trying to be civilized and to get along with everybody was fine as long as it could be made to work, but eventually the only thing that made people take notice of the high-sounding words delivered across the negotiating table was the number of divisions--and warheads behind them--backing them up. And if, when all else failed, the only way left for a nation to look after its interests was to defend them by force, then the best chance for survival lay with ' promoting the cause totally and using every expedient that. treacherously thin for them. speaking a word to each other, they move on, away from the truck. battery eventually dies. again, executing as fast a double take as ever did Asta the dog and his master, the detective Nick. IN A FAINT and inconstant breeze, waves stir through the lush meadow. At this lonely hour, in this. Colman shrugged. "Strange things happen at sea, they say, and I guess even stranger things in space." Colman nodded. "I guess so. I'll probably be asleep when you come off duty. Better give me a call." have to do with Lukipela? She continued on her rounds. Not if movies, suspense novels, and history. Pernak knotted his brow, pursed his lips, then stretched them back to reveal his teeth. "Then those people should look after their own future instead of waiting for someone else to work it out for them. That's the old way. They have to learn to think the Chironian way." After a second of hesitation he added, --that's what Eve and I are going to do. "Er... Shirley and Ci," Driscoll said. "And that's General Wellington." you're thinking about Ashley Judd or Sharon Stone, or maybe Pam Grier. Kalens had evidently been working on the details for some time. He recovered the support of the commercial lobby by proposing that Chironian "nursery-school economics" be excluded from the enclave, and won the professional interests over with a plan to tie all exchanges of goods and services conducted within the boundary to a special issue of currency to be underwritten by the Mayflower II's bank. The Chironians who lived and worked inside the prescribed limits would be free to

come and go and to remain resident if they desired, provided that they recognize and observe Terran law. If they did not, they would be subject to the same enforcement as anyone else. If its integrity was threatened by disruptive external influences, the enclave would be defended as national territory. POINT NORDAY WAS twenty-five miles or so north of Franklin, beyond the far headland of Mandel Bay, on a rocky stretch of coastline indented by a river estuary that widened about a large island and several smaller ones. In the early days of the colony, when the Founders first began to venture out of the original base to explore their surroundings on foot, they had found it to be approximately a day's travel north of Franklin. Hence its name. Micky said, "Some of your brother's problems ... It sounds like surgery could have helped at least a. Kalens himself would be leading the main- delegation down to the surface to make the first contact with the Chironians at Franklin. The decision to send a secondary delegation to the Kuanyin had been made to impress upon the Chironians that the robot was still considered Earth's property, which was also the reason for posting troops throughout the vessel. As a point of protocol, Wellesley and Sterm would not become involved until the appropriate contacts on Chiron had been established and the agenda for further discussion suitably prepared..The major sighed wearily. Every ten or.Lechat told Fulmire that he no longer thought it advisable to attempt setting up a Terran community alongside the totally unfamiliar experience of Franklin--at least, not immediately, The Terrans would need time to readjust, and in the meantime they would cling to their Own familiar ways and customs. The proximity of Franklin would only cause tensions. Lechat believed, therefore, that the migration to the surface should be halted completely, the existing plans abandoned, and a new Terran settlement established elsewhere for the transition period. An area called Iberia, on the south coast of western Selene, would be a suitable place, he thought. Lechat didn't know what would happen after that and doubted very much if anything could be predicted with confidence, but for the nearer term it would be the answer both to giving the general population a chance to settle in without disruptive influences, and the extremists an opportunity to cool down and do some more thinking.. "Casey's, I suppose." Veronica replied..He nodded. "It's all in the Neiman Marcus bag." Sterm studied her face for what seemed like a long time. At last he asked in a strangely curious voice, "And if I did, what then, Celia?".Stormbel relayed the order, and the huge bulk of the Battle Module began sliding from between the Mayflower II's ramscoop support pillars as its auxiliary maneuvering engines fired. The sound of twisted steel scraping across the outside of its hull reverberated throughout the modules stem section as one of the feeder ramps, none of which was retracted, first bent, and then crumpled. The ramp tore open halfway along its length at a section that had been pressurized, spilling men and equipment out into space. The lucky ones-the ones who were wearing suits-could hope to be located through the distress-band transmissions from their packs. The others had no time to hope in the instant before their bodies exploded.. "Everyone knows they won't. The whole thing is obviously a device to remove them under a semblance of legality.
